

MHCC helps elevate our community.

- › **Building Our Economy:** MHCC drives economic growth in East Multnomah and Clackamas Counties. In a single year, college alumni working in the region add more than **\$350 million dollars in economic activity.**
- › **Fulfilling Regional Needs:** MHCC strengthens local healthcare access. In the last five years, MHCC has trained nearly 1,000 healthcare professionals and each year, has contributed more than 60,000 student volunteer hours to **local hospitals and clinics.**
- › **Earning Community Trust:** MHCC upholds financial excellence. In 2024 MHCC was the only public college in Oregon to earn the prestigious Triple Crown Award for its commitment to stewardship and transparency of **taxpayer money.**

MHCC DISTRICT

MHCC is the most important provider of essential job training in this corner of Oregon. Our nurses, first responders, childcare providers, teachers, machine technicians, automotive workers, small business owners and more **all depend on Mt. Hood Community College.**

Learn what the Mt. Hood Community College May 2025 bond would do to keep our community thriving.

Why is MHCC Proposing a Bond?

It has been 50 years since MHCC last passed a bond measure. In that time, our community has grown, a college education has changed dramatically, and our facilities have aged.

If passed, this bond would:

- ✓ **Expand Career Education Facilities to Meet Local Workforce Demand**
Facility improvements will equip thousands of skilled workers in high-demand fields like healthcare by updating classrooms and labs that prepare students for frontline careers.
- ✓ **Help MHCC Better Serve the Community**
Upgrades to the community pool for year-round use, improved ADA accessibility, and new technology to support both urban and rural learners. These improvements mean opening year-round access to popular programs, such as swim lessons (26,000 residents served last year) or regional events.
- ✓ **Secure the Campus**
Strengthening security with modern lockdown capabilities, upgraded fire safety systems, and seismic retrofits for 50-year-old buildings that predate today's earthquake and seismic standards.
- ✓ **Repair Aging Facilities**
Repair 50-year-old buildings with upgraded electrical wiring, heating, and cooling systems that are original to their 1970 construction.

What would it cost?

This bond is estimated to cost 25 cents / \$1,000 of assessed value. For the average homeowner, that means about \$5 a month, or \$60 a year.

From Government Camp to Sandy, East Portland to Corbett, Troutdale to Gresham our communities rely on **Mt. Hood Community College** as the **#1** provider of higher education, job training, and new workers for local businesses.
